MAKING EQUITY REAL

A FRAMEWORK FOR EQUITY

ADVANCING EQUITY IN PORTLAND MEANS IMPROVING THE WAY THE CITY WORKS — STARTING WITH HOW THE CITY GOVERNMENT AND PARTNERS MAKE DECISIONS, WHERE THEY INVEST, HOW THEY ENGAGE WITH PORTLANDERS AND EACH OTHER AND HOW SUCCESS IS MEASURED.

This chapter of the Portland Plan explains the framework for advancing equity (longer-term policies and short-term actions). It includes information on what to do — close disparity gaps and focus on equitable outcomes; how to do it — improve participation, build partnerships and initiate targeted social justice initiatives; and how to be accountable. It sets forth a new way of working that puts achieving equity front and center and identifies some of the specific actions needed to ensure that the Portland Plan’s equity framework is strong and supportive.

The Framework for equity includes “We will.” statements that set the ground rules for how the City and partners conduct ourselves, outlines the ends we would like to achieve and the means used to get there. It includes specific actions that the City and its partners will need to take in the next five years to move intentionally toward being a more equitable and just city.

The City and Portland Plan partners will use the framework as a guide when they implement actions in other sections of this plan and develop their work plans to make the goals of the Portland Plan reality. All Portland Plan actions should be implemented with this framework in mind.
EQUITY DEFINED

Equity is when everyone has access to the opportunities necessary to satisfy their essential needs, advance their well-being and achieve their full potential. We have a shared fate as individuals within a community and communities within society. All communities need the ability to shape their own present and future. Equity is both the means to healthy communities and an end that benefits us all.

MAKING EQUITY REAL

We make the promise of opportunity real when:

- All Portlanders have access to a high-quality education, living wage jobs, safe neighborhoods, basic services, a healthy natural environment, efficient public transit, parks and green spaces, decent housing, and healthy food.
- The benefits of growth and change are equitably shared across our communities. No one community is overly burdened by the region’s growth.
- All Portlanders and communities fully participate in and influence public decision-making.
- Portland is a place where your future is not limited by your race, gender, sexual orientation, disability, age, income, where you were born, or where you live.
- Underrepresented communities are engaged partners in policy decisions.

WHY EQUITY MATTERS

Prosperity

Portland wins when everyone achieves their full potential — when businesses thrive in our community, when children graduate from school college- and career-ready and when we all have access to healthy food. Portland’s shared prosperity depends on everyone’s participation.

Resilience

Without healthy, thriving, prepared people we cannot achieve our highest goals, implement our best plans for dealing with climate change or secure Portland’s position in the global economy. Without a city that is physically designed to last, future generations will not benefit. We want a city where we are better on a good day so we can bounce back from a bad day. It requires that everyone thrive and everyone participate.

Prevention

Meaningfully connecting everyone to community institutions, programs and services prevents problems from occurring in the first place. The cost of doing nothing is profound, both socially and fiscally.

Leadership

Just as Portland has led innovation in environmental sustainability and green technology, Portland must be a leader in social sustainability. By focusing on ways to build equity and accountability, Portland will lead the development of 21st century business practices and tools, and that has value in a knowledge-based economy.

In 2011, the Portland city council voted to create the Office of Equity and Human Rights (OEHR). The Office of Equity and Human Rights will be a critical implementer of the Portland Plan and will work closely with the Portland Commission on Disability and the Portland Human Rights Commission throughout the implementation of the Portland Plan.

CLOSE THE GAPS

WE WILL . . .

A  Collect the data we need to understand the conditions and challenges facing communities with disparities. We will use alternative data sources and research methods where needed.

B  Track and report spending and public service delivery measures by place and community.

C  Raise awareness, increase understanding and build capacity to identify critical disparities, in an inclusive manner.

D  Assess equity impacts of policies, programs, public services, investments and infrastructure delivery that may appear fair, but marginalize some and perpetuate disparities.

E  Develop strategies to mitigate equity impacts, including reallocating public resources to address critical disparities.

F  Build a public database of what works. Prioritize policies, programs and actions to make measurable progress towards more equitable outcomes.

G  Tailor approaches to disparity reduction so they are relevant to the primary needs of each at-risk community.
