Heritage Trees of Portland

SILVER MAPLE (Acer saccharinum) SAPINDACEAE

- Native to eastern North America.
- Height can exceed 130'; massive tree.
- Leaves are deeply 5-lobed, green on top and silvery beneath.
- Can be male (seedless), female, or bisexual. Blooms late winter/early spring. Winged seeds reddish and U-shaped.
- Fall color can be negligible to yellowish.
- Somewhat common in Portland, considering its size. Tree #99 was among the largest in city.
