

Heritage Trees of Portland

COMMON HORSECHESTNUT (*Aesculus hippocastanum*) SAPINDACEAE

- Native to mountainous Greece and Albania.
- Frequently reaches 100' in height.
- Leaflets are 7 to make a palmate leaf.
- Flowers white, erect cluster 8-12" in April and May. Nut husk prickly and roundish.
- Bark is in plates.
- Fall color is negligible.
- Common in Portland, especially in older neighborhoods.
- Baumann horsechestnut is a seedless variety introduced to the U.S. after 1850, but commonly offered in the early 1900s.
