

Heritage Trees of Portland

ATLAS CEDAR (*Cedrus libani* ssp. *atlantica*) PINACEAE

- Native to Atlas and Riff Mountains of Algeria and Morocco.
- Can exceed 150' in height.
- Needles olive green except most cultivars are shades of blue-gray. Needles are in lush clusters of spurs long the branch.
- Male cones abundant in mid-autumn. Female cones barrel-shaped, borne upright on branch.
- Many cultivars of this species, most very blue.
- Common in Portland.
