

Heritage Trees of Portland

ENDLICHER PINE (*Pinus rudis*) PINACEAE

- Native to high mountains of Mexico. Grows well as an exotic in England.
- Needles 5 to a bundle, 6-8" long.
- Seed cones sessile, 3.5-4" long.
- Since this tree is large and planted on city property, it is hypothesized that Ernie Fischer, once curator of Hoyt Arboretum, collected or acquired the seed from Mexico or England and propagated it at the city nursery.

220 Endlicher pine (*Pinus rudis*)

SW Rose Garden Blvd, Washington Park (SE end parking lot)
