

## Heritage Trees of Portland

### EUROPEAN WHITE ELM (*Ulmus laevis*) ULMACEAE

- Native to central and southeast Europe, Caucasus.
- Height rarely exceeds 100'.
- Leaves can reach 4", smooth to mildly rough above and softly hairy beneath.
- Seeds ciliate on edge (similar to *U. americana*)
- Trunk can become fluted.
- Probably more common in Portland than has been recorded.

240 European white elm (*Ulmus laevis*)

3331 NE Hancock

H 75, S 81, C 14.67
